

TNE20002/TNE70003 - Network Routing Principles

Portfolio Task - CCNA2 Final Exam Graded Task

Introduction

This task takes the form of a **Cisco NetAcademy Exam** taken during Week **9** of semester. The exam will be graded to **Pass**, **Credit**, or **Distinction** Level based on your raw score in NetAcademy.

Purpose

This task assesses your theoretical understanding of the theoretical content in this Unit with regards to Switching, VLANs, Trunking, Inter-VLAN Routing, Spanning Tree Protocol, DHCP, Layer 2 Security, Wireless LANs, and Routing Concepts. It encompasses material from the CCNA2 Module Tests as well as some knowledge from TNE10006/TNE60006 (Networks and Switching).

This task is one of three tasks covering your theoretical knowledge attainment during semester.

Assessment

The test is run online within the NetAcademy system during your timetabled **Laboratory Class** in Week **9** of Semester and consists of a number of Multiple Choice questions.

You will be allocated 60 minutes to undertake this assessment.

Available grades for this task are:

NetAcademy Grade	Portfolio Grade	Outcome
<40%	N	You cannot pass this Unit. See below
>= 40% and < 50%	P	The maximum Portfolio grade you can achieve is a Pass
>=50% and < 70%	C	The maximum Portfolio grade you can achieve is a Credit
>= 70%	D	All Portfolio grades are possible

What Happens if I Fail

Failure in this task will **not** automatically result in **failing** the Unit. If this occurs, you will be afforded an opportunity to sit the Exam a second time in the subsequent week (**Week 10**). You **must** meet the **hurdle** requirement of **40%** on the second attempt in order to be graded at **P**.

The maximum grade available for students requiring a second attempt is P
